

“Getting Smarter in EMS” Fall 2017 Conference Schedule

KEY: [EA] Education Administration Credits* [I] Instructional Techniques Credits*
 [ME] Measurement & Evaluation Credits* [P] Provider Credits* *planned CE; approval pending*

OCTOBER 5 THURSDAY			
4:00P-6:00P		Early Conference Registration and Check-in Avoid the Friday morning regular conference check-in rush. Check-in for the conference and pick up your conference packet early on Thursday.	Registration Area (111 North Grand Ave Lansing, MI 49833
5:30P-7:30P	0.5 EA	SMEMSIC Board of Directors & Education Sub-Committee Meeting The SMEMSIC Board of Directors will meet at 5:30pm for a regular board meeting. A portion of the meeting will address budgeting and conference planning (Education Administration). The SMEMSIC Education Committee will meet immediately after the board meeting to conduct planning for the Spring Conference. All are welcome!	Regency II
OCTOBER 6 FRIDAY			
7:00A-8:30A		Regular Conference Registration & Check-In Check in for the conference and enjoy some morning coffee. This is a time to network with your peers and meet new friends.	Registration Area
8:30A-10A	1.5 IT	Keynote: Standing on the Shoulders of Giants: The Role of Mentoring in EMS <i>Speaker: Dan Batsie, EMT-P, Instructor, EMS Chief, State of Vermont</i> No one in EMS succeeds alone. However, far too frequently new practitioners are left to “take their lumps” and languish without proper guidance. This common dilemma leads to not only poor patient care, but serves to weight down EMS as a profession in face of progress. This motivational discussion will describe the importance of mentors in EMS. It will focus not just on the new provider but discuss how mentoring and cooperation can improve EMS as a whole.	Capitol I & II (111 N. Grand Ave Lansing, MI 49833)
10:00A-10:30A		Break - Exhibitor Visits and M&E Worksheet Completion Time Please follow the instructions on the M&E worksheet in your conference packet. Different questions will be posted Friday and Saturday. You must complete questions each day to receive the offered M&E credit. TURN IN COMPLETED WORKSHEET ON SATURDAY by 1pm to obtain credit!	Vendor Area
10:30A-noon	1.5 IT	Concurrent Session FR02: Don’t Let Progress Pass You By <i>Speaker: Dan Batsie, EMT-P, Instructor, EMS Chief, State of Vermont</i> The clinical world of emergency medicine is dynamic and ever evolving. Staying current as a practitioner is challenging but a key component of professional excellence. As an educator, this lesson must be included in the classroom and your behavior and clinical relevancy is reflected upon your students. Moreover, an instructor who fails to stay abreast of progress can negatively impact student success. This class will discuss how clinical progress impacts student outcomes and describe key methods instructors can use to stop their lessons from becoming stagnant. We will also discuss strategies for teaching and modeling the importance of progress in a dynamic profession.	TBD
10:30A-noon	1.5 IT 1.5 P (para- medic)	Concurrent Session FR03: Burn Surge Training for EMS <i>Speakers: Don Edwards, DO and Anne Fast, RN</i> Join Michigan healthcare preparedness leaders to learn about Michigan’s Burn Surge plan and get tips about teaching EMS providers to provide stabilizing burn care and to work with sending facilities to prepare patients for transport/transfer to definitive care facilities, particularly in multi-casualty situations.	TBD

8:30A-10A	1.0 IT 0.5 EA 1 P	Plenary: Current Issues for EMS Education: The National and Michigan Opioid Situation <i>Speaker: William Fales, MD Michigan EMS Medical Director</i> Session Description: This session is planned to provide an overview of the current state of affairs with regard to what appears to be increased opioid use, nationally, and related increases in deaths associated with its use. Naloxone use as a reversal agent will be summarized from a national and in Michigan perspective. Finally, recent guidelines for field provider exposure will be reviewed.	Capitol I & II (111 N. Grand Ave Lansing, MI 49833)
10:00A-10:30A	1.0 ME	Break - Exhibitor Visits and M&E Worksheet Completion Time Please follow the instructions on the M&E worksheet in your conference packet. Different questions will be posted Friday and Saturday. You must complete questions each day to receive the offered M&E credit. TURN IN COMPLETED WORKSHEET ON SATURDAY by 1pm!	Vendor Area
10:30A-noon	1.5 IT	Concurrent Session SA10: Teaching Students to Respond to Behavioral Emergencies Using the MILO System & Online Training <i>Speakers: Robert Christensen, BS, EMT, Michigan Crisis Intervention (MI-CIS) Project Coordinator</i> This session will provide a detailed overview of the Michigan Crisis Intervention project currently underway at the Western Michigan University School of Medicine. The focus of this project is to enhance first responders’ (law enforcement, fire, EMS) preparation to respond to individuals experiencing behavioral issues in the field. This is a cooperative project involving these disciplines and mental health specialists with a goal of getting the correct intervention for individuals through understanding and reasonable-length training for responders. This session will include a demonstration of the use of the MILO Response system for the support of this type and scope of training.	TBD
10:30-noon	1.0ME 0.5 IT	Concurrent Session SA11: Are We Failing the Children? <i>Speaker: Lisa Hill, MSN, RN, EMT, IC</i> As EMS Educators, we are aware that pediatric EMS calls are a source of high anxiety for most EMS providers. It has been demonstrated that there is an increase in medication errors in pediatric patients and steps have been taken to improve the medication error rate but are we doing enough in other areas of pediatric education? This interactive session will focus on whether we, as educators, are preparing our students for the real world of pediatric emergencies.	TBD
10:30-noon	1.5 IT	Concurrent Session SA12: Officer Down! Teaching Law Enforcement Officers and Out-of-Hospital Providers Hasty Tactics and Medicine <i>Speaker: Jim Etzin, EMT, IC</i> EMS Educators often play a role in preparing not just their EMS students but other disciplines to respond to immediate, non-routine events. This session will provide a number of instructional techniques that can be used to effectively prepare responders for adverse situations.	TBD
